POWER UNITS AND PUMP SETS

CADMAN POWER UNITS & PUMP SETS

A PUMP TO SUIT ANY SITUATION

Cadman Power Equipment offers high quality pump sets for the agricultural sector. The modular design of our engine packages means we can custom design and build a pump set to meet your needs. Cadman offers diesel engines from John Deere, Deutz, FPT and Kubota, with gasoline options from, Honda and Briggs & Stratton.

We provide pumping stations for virtually any pumping requirements and budget.

Our expertise in design and matching the right pump with the right engine makes sure you get the most efficient system available. We can design and custom build a pump set from 250 - 6,000 GPM.
